Your Over-the-Counter Benefit

About OTC Products

The products located on this order form are eligible for coverage. Products such as Anti-Diarrheal, Cold & Allergy medicines, Dental and Oral Care, Diabetes care, Digestive Health, Ear and Eye care, Foot Treatments, Incontinence products are all examples of eligible categories.

Dual-Purpose items

If a product can be used either to treat a medical condition *or* for a general health purpose, it is considered a **dual-purpose** item. For example, vitamins are considered dual-purpose items. **We recommend you talk to your doctor before ordering or using a dual-purpose product.** Do not order a dual-purpose product if your doctor doesn't recommend it.

On this order form, **dual-purpose products are marked with plus sign (+).**

Some items may be covered under Medicare Part B or Part D. For example, rolled gauze may be covered under Part B when used as prescribed for covering or dressing a surgical wound. **On the order form, these items are marked with two plus signs (++)**. When an item is covered by Part B or Part D due to particular circumstances, you would not use your OTC benefit to obtain the item because it is Medicare-covered in those circumstances, and not part of the supplemental OTC benefit. (For instance, you should make sure that any OTC listed items are covered by Part B or Part D, then you would not use your OTC benefits.)

Items that are not eligible

Items that are not eligible for your OTC benefit include but are not limited to:

- Deodorants and antiperspirants
- Foods or meal replacement items
- Birth control medications and contraceptives
- Herbal supplements and alternative medications
- Lotions, facial creams and other cosmetic items
- Household items including hand soaps, razors, etc.
- Baby diapers, formulas and other childcare products
